Five factors are considered by the Board:

1. Whether an undesirable change will be produced in the character of the neighborhood or a detriment to nearby properties will be created by the granting

of the variance.

2. Whether the benefit sought by the applicant can be achieved by some feasible

method other than a variance.

3. Whether the requested variance is substantial.

4. Whether the proposed variance will have an adverse effect or impact on the

physical or environmental conditions in the neighborhood or district.

5. Whether the alleged difficulty was self-created (that it will not necessarily

preclude the granting of the area variance).

2. that the hardship is unique, and does not apply to a substantial portion of the district or neighborhood, and

3. that the variance will not alter the essential character of the neighborhood, and

4. that the hardship is not self-created.
